Methodology

Use `Github Spec Kit`

Commands	What It Does
<code>/speckit.constitution</code>	Create your project's governing principles and development guidelines that will guide all subsequent development.
<code>/speckit.specify</code>	Describe what you want to build. Focus on the what and why, not the tech stack.
<code>/speckit.plan</code>	Provide your tech stack and architecture choices.
<code>/speckit.tasks</code>	Generate actionable task lists for implementation
<code>/speckit.implement</code>	Execute all tasks to build the feature according to the plan
